

You can't build a great proposal on a weak foundation

Dear Jemal

Do you want to know the secret in building a great proposal for receiving european funds?

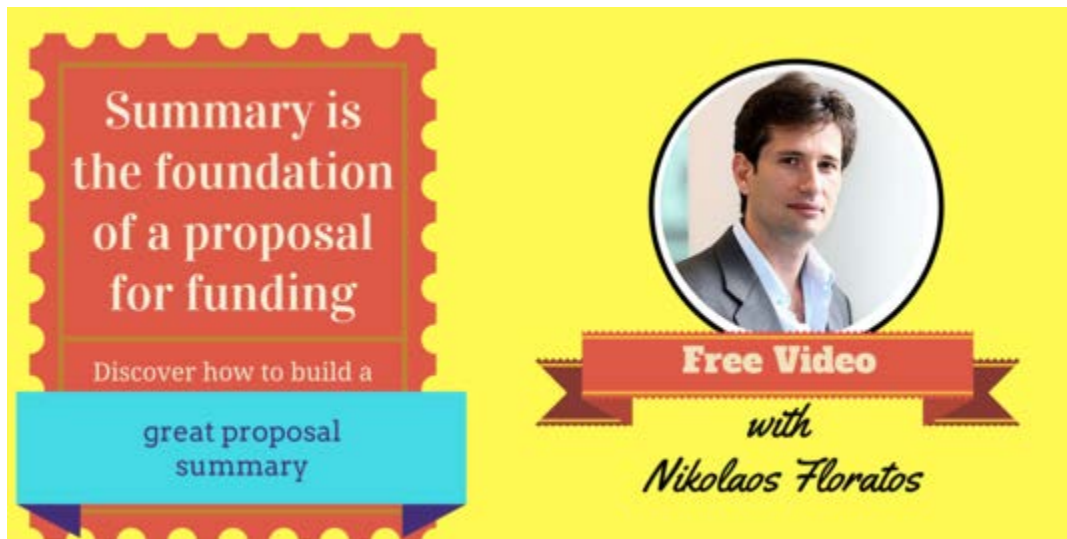

It starts with a great **proposal summary** or **project concept** in the project's management terminology. AND the great news is that a proposal summary can be **SIMPLE** to create but **HIGHLY effective** as long as you follow a specific methodology.

The summary is the foundation of your proposal and the stronger your summary, the stronger your proposal. Only great proposals get funded and great proposals require great foundations, i.e. great summaries.

Want to see how you can create one for your own proposal idea?

Access now this 24 minutes video where I am revealing the EXACT process I follow for building excellent proposal summaries. An excellent proposal summary allows me also to attract the most competent partners in the project's topic as well as receive fruitful feedback well in advance from other experts and funding authority officials.
